

Indian Summer

Once in a great while, a community emerges to become the new standard by which all others must be judged. Today that community is Indian Summer!

Designed by an award-winning architect and built by an award-winning builder, Indian Summer has everything you thought you could never afford ...a well-designed, well-built home located around luxurious recreational facilities in a relaxed "Old Nags Head" atmosphere.

Located only a short walk to one of the world's greatest beaches, we are just close enough for your children to wander down to play in the sand and chase crabs.

We invite you to compare us to anything on the beach...you'll see the difference right away.
